Joshua Ray Freeman

Designer

CV

Experience

Junior Designer / Smart Soho / Jul 2022 – Present

- Have written and implemented custom HTML and CSS code to be transferred on to Wordpress website.
- Installed and maintained critical IT infrastructure integral to the day to day operations of the agency (e.g., set up Networked Attached Storage Systems within the film department, devised and embedded a robust filing system to optimise organisation across projects, and advised senior management on the most efficient hardware).
- Conducted the digital artwork for brochures, newspapers vinyls, and hoarding from conceptual design through to print-ready standard.
- Led animations, interactive illustrations and motion graphics in response to client briefings, independently overseeing the design, organisation, management and liaison of communications regarding a large quantity of motion/3D assets across both video and web.
- Interpreted the intended use of animation within a project in order to build an appropriate template, using expressions that could ensure flexibility for last minute alterations prior to a launch.
- Self-taught 3D animation in Cinema 4D in between larger projects to use as a competitive advantage across projects upon identifying it as a valuable gap within the agency's skillset.
- Anticipated and pre-planned solutions to a variety of potential technical problems to ensure frictionless longevity of projects.
- Acted as a key and direct client contact, positioning the work within realistic timelines and managing overall expectations through clear, concise and regular communication.
- Oversaw the creation of brochures from beginning to end, from touching up photography, producing design collateral from floorplans, maps and icons, to creating custom fonts in order to ensure a more cohesive appearance that better aligns with the brand.

Graphic Designer / Procreate London / Feb 2022 – Jul 2022

- Demonstrated a proficient use of Adobe Suite tools and platforms such as InDesign, Illustrator, Photoshop, Premier, and After Effects.
- Interpreted briefs from both new and returning clients and maintaining regular communication with them to ensure the projects are aligned with their intended creative vision, revising promptly when necessary.
- Employed fundamental knowledge of UI/UX via Figma and Adobe XD, as well as created dynamic 3D assets in Blender.
- Tactically distributed my time and skillset across multiple creative briefs, often balancing various deliverable deadlines at once - overall honing my time management and prioritisation abilities.
- Worked efficiently and cross functionally across the internal team of designers, both in person and remotely.
- Oversaw a notable incline of 45% in audience engagement with the posts I uploaded onto the long-standing client's social media.
- Managed the social media accounts for various brands, compiling and scheduling upcoming posts using cloud-based CRM platforms.
- Acted as a multidisciplinary creative across OOH and DOOH Campaigns.

Graphic Designer & Writer / Erly Stage Studio / Jan – Feb 2022

- Played a key role within a fast-paced global team, particularly in daily strategy sessions pre-campaign, making sure the team and client are aligned and mapping out the next necessary steps in the creative process.
- Designed and deployed advertising including, but not limited to, SEO, Organic Social Media Marketing, Paid Search and Social Ads, Affiliate and Advocate Marketing.
- Researched and produced both short and long-form written content to tight deadliness targeted towards constantly varying demographics and topics, from crypto to cyber-security.
- Gained experience within more formal, standardised clients, such as banks and governments, and learnt valuable lessons in adapting tone, approach and my overall creative process to be client-specific.

Graphic Designer & Digital Content Creator / Hooked Events / July 2021 – Jan 2022

- Created visual content for various social media platforms, including, but not limited to, Instagram, Soundcloud and Facebook, with thorough and regular check-ins regarding the suitability for the intended demographic.
- Regularly updated and adapted said visual graphics after monitoring audience response towards them through collating feedback.
- Exercised the following obtained on social media to drive awareness of upcoming events and necessary details.

Barista & In-house Creative / Effy / October 2021 – July 2021

- Maintained a high quality standard throughout everything I produced, whilst working quickly, calmly, and efficiently during busy periods.
- Employed my naturally extroverted personality to build and maintain client relationships and enhance their experience with the brand.
- Used my creative background to develop physical user interface that welcomes new customers and converts them into regular clientele.
- Became a key voice in decisions regarding menu items and available products.
- Reasonable for daily administrative duties including liaising with external parties.

Cyber Crime Investigator (Apprentice) / Nottinghamshire Police / February 2021 – October 2021

- Designed and produced leaflets to effectively communicate otherwise complicated jargo into a more casual audience that vary in their technical knowledge.
- Quickly learned the complex forensic software and used it in an organised manor
- to progress criminal cases.
- Was solely responsible for organising the cyber lab, in preparation of ISO compliance.
- Accompanied senior members to victim interviews and to live ransomware attacks.
- Tailored security advice to senior management, universities, students, and victims.
- Maintained top three placement in the West Midlands within the internal training platform
- Self-directed and time-managed extensive projects to strict deadlines.

Education

ADcelerate After Dark / Brixton Finishing School / 2022 – 2022

- Attend after hours classes focusing on a, how your current skills can be applied in the advertising industry, The different elements that make up advertising campaigns, How to sell yourself and stand out from the crowd, How to hone your networking skills, How to pitch - work with a team on a brief and pitch your ideas to industry bigwigs, And how to bring your brilliant best to interviews and presentations
- Played a lead role within my assigned creative team, organising the team and overseeing the strategic response to the brief, distilling that down into a creative brief to inspire the creatives.

Creative Advertising (BA) / University of Lincoln / 2017 – 2020

- Explored the relationship between conceptual thinking, copywriting, and design.
- Worked on creative briefs for clients, such as Penguin, Pipers Crisps, B&Q and Classic FM, through a range of media, including television storyboards, O.O.H.,and gurilla.
- Developed and pitched two 360 campaigns being one of the favourites from the clients.
- Regularly worked to strict deadlines and balanced other academic responsibilities.
- Consistently worked in a small team to develop thoughts into concepts, that resulted in well-rounded creative campaigns.
- Extensively practiced within a studio-setting to build confidence in digital literacy.
- Became familiar with the importance of research and ability to empathise with the target audience/demographic.

Interactive Design / University of Lincoln / 2016 – 2017

- Provided me with great fundamentals that I continue to implement within my design practice.
- Demonstrated the usage and significance of methods such as: two-dimensional and three-dimensional design, digital media, responsive design, motion graphics, animation, sound, installation, and typography across analogue and digital platforms.
- Allowed me to gain confidence in employing visual design into spaces to communicate with a diverse range of audiences.

Creative Media Production / Stafford College / 2014 – 2016

Various British Computing Society Qualifications / West Notts College / 2021 – 2021

- Developed an understanding of the core principles and foundations for a cyber security technologist.
- Covered: Security Theory, Assurance and Concepts applied to ICT infrastructure; Attack Techniques and Common Threats; Cyber Defense; Legal, Standards, Regulations and Ethical Standards in Cyber Security
